

General Overview:

The NEBOSH Certificate in Environmental Management covers the practical issues of managing environmental risk. The syllabus takes a risk management approach based on the best practice and international industry standards.

No previous environmental management knowledge is required but you should note the assessment includes a requirement to write a short report.

The NEBOSH Certificate in Environmental Management consists of two units; each separately assessed:

- ❖ Management and control of environmental hazards (EC1)
- ❖ Environmental practical application (EC2)

2016 and 2017 Course Dates

<i>December 2016</i>		<i>May 2017</i>	
5 Block Days	12th – 16th December	5 Block Days	15th – 19th May
Revision Day	19th December	Revision Day	5th June
Exam	20th December	Exam	7th June

What is Included in the Cost:

Course Cost:

- ❖ 5 days of study (1 x 5-day block weeks)
- ❖ One-day structured revision
- ❖ NEBOSH Exam fees
- ❖ Lunch and refreshments
- ❖ Study materials

Book the December 2016 or May 2017 date now for:

£900 Inc. VAT

(Price after May 2017 £999.00 Inc. VAT)

Where is the Course:

HCF CATCH, Kiln Lane, Stallingborough, DN41 8TH

Course Syllabus

Unit EC1: Management control of environmental hazards

Management control of environmental hazards is divided into nine elements:

- ❖ Element 1 – Foundations in Environmental Management
- ❖ Element 2 – Environmental Management Systems
- ❖ Element 3 – Environmental Impact Assessments
- ❖ Element 4 – Controls of Emissions to Air
- ❖ Element 5 – Control of Contamination of Water Resources
- ❖ Element 6 – Solid Waste and Land Use
- ❖ Element 7 – Sources and use of Energy and Energy Efficiency
- ❖ Element 8 – Control of Environmental Noise
- ❖ Element 9 – Planning for and Dealing with Emergencies

Unit EC2: Environmental Practical Application

The candidate is then expected to complete a report to management regarding the review with recommendations, using the NEBOSH Environmental Review Report template. The proforma and report should clearly identify:

- ❖ The nature and location of each environmental issue
- ❖ The degree of risk associated with the environmental issue
- ❖ Preventative and protective environmental measures already in place
- ❖ The remedial actions, where appropriate, with relevant prioritisation

Assessment

Unit EC1 is a taught unit assessed by a two-hour written examination. The examination consists of ten 'short-answer' questions and one 'long-answer' question. All questions are compulsory.

Unit EC2 requires the candidate to carry out an environmental review of a workplace or organisation and produce a justified action plan to improve performance. This practical application must be completed and returned normally within 10 working days of the written examination.

Exemptions

There are no exemptions available for this qualification.

Professional Membership

The NEBOSH Certificate in Environmental Management is accepted by the Chartered Institution of Water and Environmental Management (CIWEM) as meeting the requirements for Technician Membership (TechCIWEM) of the Chartered Institution of Water and Environmental Management (CIWEM).
