“ Reynolds transformed the way we think about safety - couldn't recommend them enough.

✓ Reduce accidents	✓ Enhance reputation
✓ Comply with regulations	✓ Future-proof skills
✓ Boost performance	✓ Increase productivity
✓ Increase skills & knowledge	✓ Worker well-being

Backed by the world's leading awarding bodies:

The safest way to advance your career

Gain the expertise you need to break into the industry or to take the next step in your career.

5 reasons to invest in your future with Reynolds Training

Focused on the future

1

Increased Safety:

We'll teach you how to identify hazards and risks associated with your job and how to mitigate them to prevent accidents and injuries.

2

Improved Performance:

Get equipped with the skills and knowledge to perform job tasks more effectively, leading to improved performance and productivity.

3

Career Advancement:

Acquire skills and knowledge through training to increase your value to your employer and, in turn, your career prospects. Gain the competitive edge.

4

Legal Compliance:

By completing our training, you'll be compliant with regulations native to your country, protecting yourself and your employer from legal risks.

5

Personal Well-being:

Staying healthy and safe at work, which can have a positive impact on your overall well-being.

“ The learning experience was amazing. I'm so excited by what my future brings.

“Your journey doesn't end with your service. Our courses bridge military skills to industrial prowess.

- John Reynolds,
ex Forces and Reynolds Training MD

Why secure your future with Reynolds Training?

As a Ministry of Defence-endorsed beacon of learning, Reynolds Training empowers Armed Forces, Services Leavers and Veterans to deploy their ELC credits for:

- ◆ Advancing careers through ELCAS-approved qualifications
- ◆ Fortifying skills and confidence pre-transition
- ◆ Bolstering post-transition career prospects

Our veterans are now excelling in thriving careers within the process industries and beyond.

Who can apply for our ELCAS courses?

Our ELCAS students and graduates are serving personnel, service leavers and those no longer in service within:

- ◆ The Royal Navy (and Royal Marines)
- ◆ The Royal Air Force
- ◆ The British Army

The four sides of the NCPM

At the NCPM, we deliver advanced safety and technical training for careers across Operations, Maintenance, Control & Instrumentation, Process & Occupational Safety, Quality Control and Management.

To help do this, the NCPM encompasses distinct facilities, each of which helps learners build knowledge, skills and experience in a real-time, real-world emulated environment for transferring, processing and storing bulk liquids.

Tank Farm

Explore our impressive Tank Farm, featuring tanks, pumps, pipes, filters, meters and valves designed to replicate liquid transfers in process and storage facilities worldwide.

Process Building

Connected to the Tank Farm, our Process Building features functioning pumps, pipelines, and multiple levels housing receipt tanks, process vessels, transfer pumps, regulating valves, heat exchangers and a sampling rig.

Control Centre

The Operational Control Centre serves as the hub for operational control in the Tank Farm, housing reception, control, switch rooms and Distribution Control Systems.

Simulator Suite

In the Simulator Suite, learners face high-hazard operational processes and emergency response conditions, allowing observation and assessment of decision-making in simulated emergency situations.

Process Building
Filtering, blending & transferring materials

Control Room

Your all-in-one solution for training management

Are you ready to revolutionise your health and safety training game? Introducing CALMcloud - the comprehensive solution designed to streamline your training management process.

From learning management to competence assessment, CALMcloud empowers your organisation with a user-friendly platform that simplifies training and enhances occupational competence.

✓ Consolidate materials and records	✓ Real-time, customisable reporting
✓ Access everything in one location	✓ Track progress against standards
✓ Secure, cloud-based platform	✓ Identify areas for improvement
✓ Accessible 24/7 from any device	✓ Backed by real-time support

Ready to say 'goodbye' to the hassle of managing training records and certifications manually?

Then say 'hello' to our dedicated team who are here to assist with technical support, data management, and process optimisation.

03331 6300 626
reynoldstraining.com

3 ways CALMcloud will elevate your training management

#1 System Overview

Simplifying Training Management

CALMcloud is a fully integrated learning management, competence, and assessment system. Developed by our team of experts, CALMcloud is built on the secure Amazon Web Services Cloud Computing Services, ensuring dependability and peace of mind.

#2 Training

Flexible Training Options for Every Need

CALMcloud supports various training formats, including online, video-based, instructor-led, assessments, competence tracking, and mentoring. Our platform enables you to upload and update training materials, ensuring the latest versions are readily available. Allocate courses to specific roles, ensuring employees receive the appropriate training and competence procedures.

#3 Reporting

Insights for Effective Training Management

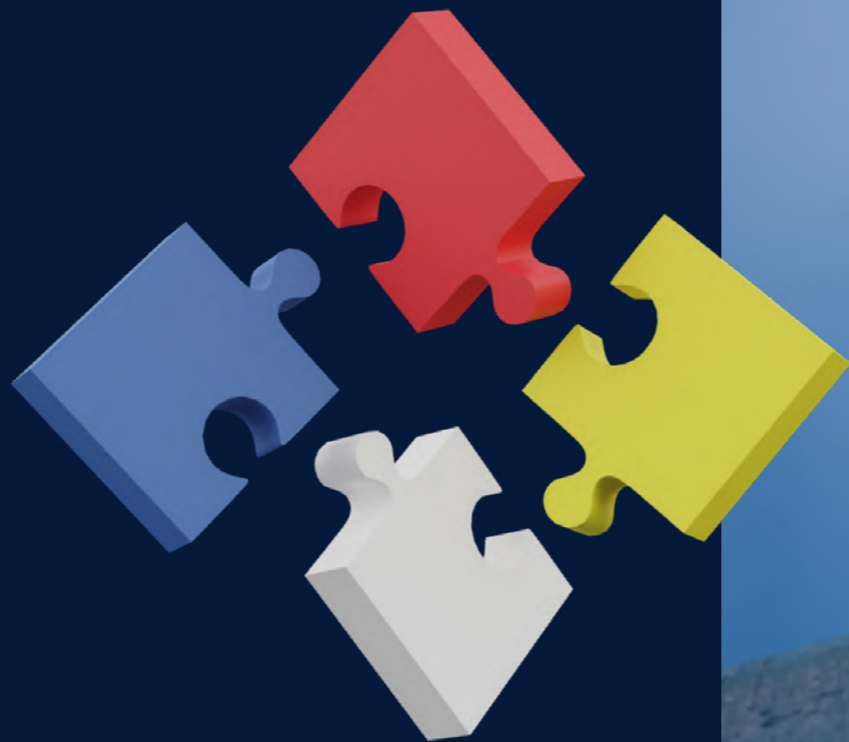

CALMcloud revolutionises reporting with real-time, customisable features. Gain a holistic view of your organisation or drill down to individuals and specific courses. Monitor progress, expiration dates, and identify areas for improvement. CALMcloud empowers you to efficiently manage the training and competence of your workforce.

Section 04

Getting to know Reynolds Training

Reynolds Training is the missing piece of your safety puzzle. As the world's foremost authority in safety training, we'll click together all aspects of your safety requirements. With a huge range of accredited courses from NEBOSH, IOSH, Quallsafe and GQA, take the pain out of the way you train with fun and interactive learning experiences delivered in the classroom, onsite and virtually.

Advance careers, reduce risks, increase profits, ensure compliance, save lives and protect our environment. Let's solve the safety puzzle together.

Section 04 • More about Reynolds

Safety is our mission (statement)

Our passion for safety is what sets us apart. We go beyond just achieving compliance with regulations; we strive to create healthier workplaces for all. That's why our clients love working with us, and we're confident you will too.

Reynolds is about education. It's about keeping people safe and advancing careers in high hazard and process industries. We get results through flexible, engaging learning built on the passionate foundations of knowledge, skills and experience.

“ Incredible experience. The instructors are so engaging. It's health and safety but not as we know it.

John Reynolds
Founder and Managing Director

Enigmatic entrepreneur, John Reynolds, is the man behind our brand. After leaving the military 30 years ago, John moved into the high hazard industries and that's when his passion for safety truly took hold. For the past two decades, John and his fantastic team have built Reynolds Training into one of the most sought after training providers in the world.

Our values

Safety is a matter of course

The process industries are more inherently dangerous than others. A lack of proper health and safety procedures and training can lead to accidents, injuries and even fatalities.

That's why health and safety and competence management training is key to unlocking success and sustainability for our process industries. In doing so, Reynolds Training Services (RTS) works to the mantra of **Respect, Trust and Succeed (RTS)**.

Respect The hazards

Showing respect for others and the environment, individuals and businesses can create a culture of safety and reduce the risk of accidents and injuries.

Trust The solutions

Trust is the confidence in the reliability, integrity and ability of others to do what is necessary to ensure safety and prevent harm.

Succeed The people

Succeeding in health and safety means creating a safe and healthy work environment where employees can work without undue risk to their health or safety.

Why choose Reynolds Training?

At Reynolds Training, we understand that choosing the right training provider for your process industry business is a crucial decision. With higher hazards involved in these sectors, it is imperative that your workforce receives the best health and safety and competence management training available.

Our training is specifically designed to equip your workforce with the knowledge and skills they need to stay safe on the job while also driving performance and productivity.

Backed by the world's leading awarding bodies

Reynolds Training delivers world-class training courses that are accredited by NEBOSH, IOSH, GQA, Qualsafe, and Reynolds, ensuring your employees receive the highest standards of quality and relevance.

Join us today and advance your journey towards a **safer and brighter future.**
